

Brain Awareness Week

at THE UNIVERSITY of
MISSISSIPPI

Your Brain on Music: The Neuroscience of Musical Perception

Do you know what happens in the brain when you listen to your favorite song? Or when musicians create music? Come and find out from a neuroscientist and musician. Dr. Psyche Loui will show us how music shapes our brain and behavior.

Presented by:

Psyche Loui, Ph.D.
Director of the MIND Laboratory
Wesleyan University, Middletown, CT

When and where:

Wednesday, April 4th, 2:00 pm
Lamar Hall (Room 129)
University of Mississippi – Oxford campus
